

# Response to Consultation document: changes to Human Medicine Regulations to support the rollout of COVID-19 vaccines

Published 28 August 2020

## Temporary authorisation of the supply of unlicensed products

The opening statement is patently false - there are far bigger threats, not least economic collapse from the disastrous policies implemented 4 days after the UK government downgraded COVID-19 as a High Consequence Infectious Disease (HCID) - how does DHSC reconcile "COVID-19 is the biggest threat this country has faced in peacetime history" with the downgrade announced on the government website 19th March 2020? <https://www.outersite.org/covid-19-regulations-unlawful-unnecessary-and-implemented-in-bad-faith/>

## Civil liability and immunity

Not only is the government compromised by conflicts of interest but by funding various organisations such as Imperial College (whose erroneous models were used to justify the "lockdown"), GAVI, WHO, the BBC and numerous other individuals and organisations involved in orchestrating this protection racket, the pharmaceutical companies and their beneficial owners are controlling the levers of power in order to not only profit from needless vaccination but avoid any liability for the damage they will undoubtedly cause. Note 20 million died during the alleged Spanish Flu but those who died had been subject to mass vaccination programs - see page 220 <https://www.outersite.org/wp-content/uploads/2020/05/Virus-Mania55tt66.pdf>

Vaccines have a higher mortality rate than the diseases they are supposed to avoid.

## Expansion to the workforce eligible to administer vaccinations

Mass vaccination will likely lead to many unnecessary deaths and thus is not necessary or desirable

## Vaccine promotion

This subversion of democracy has multiple aspects and is for the benefit of those "benefactors" and beneficiaries of this lethal agenda.

UK government policy has been bought not just for profit but to fulfil a wider and deeper agenda <https://archive.org/details/covid-19-structural-violence-2020>

## Provisions for wholesale dealing of vaccines

The above answers make the "wholesale dealing of vaccines" irrelevant except to say, these provisions, like the lockdown provisions, are plunder and structural violence in action which is why I've referred to this as a protection racket. Most people in government and the DHSC are oblivious to the fact that the government and other institutions have been infiltrated and are now controlled by criminals - compartmentalisation and propaganda ensure that few understand the agenda.

## 6. What could we do better?

Take notice of objections to the lies and deceptions perpetuated to implement this genocidal agenda - vaccines kill... many more people than COVID-19
