NHS documents show that under the enhanced payments scheme, GP's will be indemnified against litigation should a child be injured by the Pfizer jab. It means no matter how many are injured or die, GP's will not be held accountable

Data lies

A whistle blower has gone on record in the US stating that thousands of Covid-19 injection deaths in the US have been concealed and that numbers reported are understated by a factor of 5.

COVID 19 EDUCATION

FACT FILE

Of the 50 covid deaths* of 0-19 year olds, 41 had underlying health conditions. In other words, they died of other conditions, NOT COVID 19

* The PCR test for covid 19 is itself flawed, even a Government Minister called Dominic Raab said on Sky TV that the test is only about 7% accurate. This means that of the remaining 9, it is highly unlikely that any actually had covid

For those who tell you that the Covid-19 injection is authorised, approved or licensed remind them of these facts, especially if they are considering that the C19 injection is a good idea for children:

The injections are still in Stage 3 Clinical Trials that do not finish until early 2023
