What a surprise that you would demonize someone speaking out about the mRNA therapy that's not a vaccine, when you were health minister at the time the roll out began! Remember you said only the old and vulnerable would be jabbed. We don't trust any of you.

That "no place in our society" is a mantra that gets thrown about quite a bit. It is applied to most human behaviors, thoughts or actions. Humans may no longer have a place in "our" society.

Why are the Government and Mainstream Media still looking the other way, pretending these incidences didn't occur?

I'm ready to talk whenever you are.
